AFFAIRS OF THE DISTRICT

The Attorney's Opinion on Bay Window Projections.

The Commissioners Advised Upon II. legal Use of Parking Space-An Extension of Sand Contracts Re-Iused - Opening of Swann Street.

Andrew B. Duvall, the Attorney for the District, yesterday submitted to the Commissioners an opinion relative to the encroachment of the house of Barbara Clements upon the public space at the intersection of Maryland Avenue and H streets northeast. The matter was referred to the Attorney for advice as to the proper legal procedure in this and simi-It appears that the case under consideration arose through an application of the owner for a permit for a projection. The

"On May 16, 1906, the inspector notified the owner as follows: "The two bay-windows erected by you, under permit 15%, April 23, 1900, have been discovered by an official survey to be in excess of the limitation allowed in the permit. The encroachment upon public space is ten feet pre ore or less from the building line of Maryland Avenue. You are, therefore, notified, etc. Following this she was prosecuted in the Police Court upon the charge of constructing two bay windows without permit, and by the verdict of a jury she was neguitted.

From the enclosed statement of the Inspector, it appears that at the trial evidence of a rather indefinite character was introduced, that more than twenty years ago the property lines had been fursished by the Surveyor for this heuse or ofter houses on the same building line; this was claimed as the origin of the constitution of the Commissioners without an opinion. Inspector, it appears that at the trial The was claimed as the origin of the opinion. mistake. If this was the fact, the evidence of it would be the certificate of

prescription has been acquired it is a title in the proval of the life to the fand encroached upon. The fifth to the street, however, is in the United States, and no use however long permitted by the municipal authorities could take the fifth out of the United States.

"There are, in my indement, two sufficient reasons why there could be no estable of the District, and where both parties stand on equal footing there can be no estapped; second, the municipal authorities could not deprive either the United States.

The United States Electric Lighting of the true line was open to the owner as be no estapped; second, the municipal authorities could not deprive either the United States Electric Lighting of Square El. This application has required in the act of Congress approved March 3, 1861, confirming certain permits for extensions can have no application in this case, because no permit to extend be nother than the act of Congress approved March 3, 1861, confirming certain permits for extensions can have no application in this case, because no permit to extensions the line of the Commissioners.

Proval of the Commissioners.

L. Watter Weed, of £2 Thirtsenth Street in the bands of farmers is estimated to sell to the District of Island and the Life tract of Island and the Backetic of Island and the condition of the containing 25.14 in the hands of farmers is estimated to the District one-half mile east of Benderic To Island and the copy of 1898 in farmers hand two years ago, and 6.19 per cent of the crop of 1898 in farmers hand two years ago, and 6.19 per cent of the crop of 1898 in farmers hand two years ago, and 6.19 per cent of the crop of 1898 in farmers hand two years ago, and 6.19 per cent of the crop of 1898 in farmers hand two years ago, and 6.19 per cent of the crop of 1898 in farmers hand two years ago, and 6.19 per cent of the crop of 1898 in farmers hand two years ago, while it was 6.7 points lower than on August 1, 1899, and 2.5 points above the mean of the Columbia Discretic Lighting of square El. No. plication in this case, because no permit

plication in this case, because no permit to extend beyond the building lines, except as to the bay windows, is chained. The extension, it seems to me, resulted from a mistake as to the location of the true building line.

"I had the helior on May M. 190t, to salvise generally on the subject of filegal occupation of pablic space and the character and effect of a mere license therefor from the municipal authorities; and I beg leave to call your attention to the discussion of the matter contained in the opinion their rendered.

"As to the procedure in such a case as

As to the procedure in such a case

rule established for the unloading of sand and gravel in the District property yards be modified. The company stated that during the warm weather it was difficult to get men to work, and that the rate of wages allowed did not satisfy the men. The matter was referred to the Engineer Department and Capt. Chester Harding. Department, and Capt. Chester Harding was instructed to examine the matter per-sonally and report to the Engineer Commissioner. He has now reported as fol- The Telegraph Cable Company Gains

Eastle, recently requested the opening paving, and laying of sidewalks in Swans Street, through square 177. The attorney says that the opening of this street is necessary to the proper improvement of this property and its sale in the market. The matter was referred to the Engineer Department, and C. B. Hunt, in charge of the surface division, has reported that

of the surface division, has reported that after a personal examination of this atreet he believes that the proper initiation of its improvement would be the setting of the curb and the laying of sidewalks under the assessment system. Continuing, Mr. Hunt says.

"This is a minor street, and the public interests that would be subserved by its improvement are very subordinate to those of the private owners, and should the owners not regard the proposed improvements of curb and walk as a necessary one, we would be unable to consider the roadway improvement as being such. I recommend that the applicant be so informed."

The Commissioners yesterday cor proper legal procedure in this above of lar cases of unauthorized occupancy of cred three applications of the Chesapeake public space by buildings or parts thereof. mits to string wires, etc., for the extension of their system, as follows: To string two wires from Thirteenth and it was 25.5 points lower than at the cor-Huron Streets to 130 Yale Street north-west; two wires from Fifteenth Street than on August 1, 1839, and 25.6 points be-

A few days ago the Steel Cut Cereal A few days ago the Steel Cut Cereal Company made application for a permit to construct a railroad siding at Kenilworth. The matter was referred to the Attorney for the District for his opinion as to the authority of the Commissioners to grant such permission. In the meantine the company withdrew its application, and yesterday the papers were returned by the Attorney to the Commissioners without an account of the conditions in the principal States are attorney to the Commissioners without an account of the conditions in the principal States are as follows: Minnesont, Science in Amsourt, Science and S

J. Hoffman Smith, of 524 Tenth Street

of 107 Sixth Street northwest, and in front of 107 Sixth Street northwest, and in front of the premises 482. C Street northwest. These applications have received the approval of the Electrical Engineer, and it is understood that they will receive the sanction of the Commissioners.

1898 and tax sale for the same against lot 16, block 8, Washington Heights, be canceled. After investigation by the Tax Tepariment the Commissioners have de-cided to grant the request.

VALUABLE COAL LANDS SOLD.

York Syndicate Purchases Large West Virginia Interests. CONNELLSVILLE, Pa., Aug. 10.-Neotiations have been completed between

ABSORBED BY THE POSTAL.

It see no reason for medifying the rule now in force with respect to the hours of delivery of sand and graves at the District property yards under the contract with the Columbia National Sand Dredging Company. An extension of the hours of delivery as requested would entail overtime work on the part of the District employes, which would be justified only in a case of emergency in which such overtime work would be necessary in the interests of the District.

"I am informed that there is at present on hand at the Edstrict property yard a gook of 3,80 cube yards of sand and 200 cube yards of gravel. The consumption of these materials in the various works of the District during the months of August and September, 198, was 61 and 32 cubic yards, respectively. There is, therefore, no emergency existing and I do not see that the convenience of the contractor is a sufficient cause for requiring overtime work.

Andrew B. Duvall, the Attorney for the District, yesterday called the attention of the Commissioners bave approved the Poistrict, yesterday called the attention of the Commissioners to the filling of a supplemental petition with reference to the extension of Fifth Street, and he stated that public notice had been given, as provided for in the statute, requiring all persons interested to appear on August 25.

ANDRED AUDICAN TRADE

AFTER AFRICAN TRADE.

The Attorney states that it is his intention on that day to procure an order for the summoning of a jury and proceed with no amnecessary delay to a hearing. Continuing, the Attorney says:

"I respectfully request that, as usual in such cases, this office be furnished with the names of the witnesses to the value of the land to be taken and as to the benefits resulting from the extension of the street extension. In this connection I beg to state that the act of Congress providing for this proceeding fixes the area for the assessment for benefits so as to include the ground on each side of Fifth Street between Pomeroy Street and Spaces Street. The plat filed with the perition in this case does not show the names of any owners of land within this assessment area. I therefore respectfully request that, prior to August 28, this office ac furnished with the names of the owners of the lots, pleces and parceis of ground between Spruce Street and Pomeroy Street lying on each side of Fifth Street to the depth of about 205 feet."

AFTER AFRICAN TRADE.

Canadia Expects to Get That of the Transvani.

MONTREAL, Aug 3.—James Cumming, the Canadian trade commissioner, has written to a Brockville correspondent, saying that the demands of the military for wharfage and transportation check and block ordinary trade at all ports, but that when peace is restored and the Transvani mines are producing, there will be an immense market for Canadian implements, boots and shoes, mining machinery, and electric and steam railway supplies. The milnes in Johannesburg have been largely worked by engineers from New England and California, he says, "and-through them has been foreign the demand for American machinery. I find that trade does not so much follow the flag as it does the active engignants from manufacturing countries. Canadian goods are coming in te a considerable extent via New York, and are and Spruce Street. The plat filed with
the petition in this case does not show
the names of sny owners of land within
this assessment area. I therefore respectruly request that, prior to August
25, this office of furnished with the names
of the owners of the lots, pieces and parcels of ground between Spruce Street and
Pomeroy Street lying on each side of
Pitth Street to the depth of about 200
feet."

Commissioners against the sale by Rosenbard of In Iowa. The surveys condition of oats declined the commissioners against the sale by Rosenbard of In Iowa. The surveys condition of oats declined to the foreign of Minnesotia, 25 in North Dakota, 32 in North Dakota, 32 in South Dakota, 32

19 in Kansas, 16 in South Dakota, and 15 in New York.

"The average condition of spring rye declined 9.7 points during July, on August 1 it was 7.5 points higher than at the corresponding date hast year, 5.4 points lower than on August 1, 1899, and 22 points below the mean of the August averages for the last ten years. The conditions in the principal States are as follows: Wisconsin 84, Iowa 86, Nebraska 68, Minnesota 88, During July there was a decline of 7 points in Iowa, 9 in Wisconsin and Minnesota, and 21 points in Nebraska.

"Preliminary returns Indicate an increase of about 43,00 acres, or 6.7 per cent in the acreage in buckwheat as compared

leave to call your attention to the discussion of the matter contained in the oals of the matter contained in the oals of the course would be to file a bill in equity for a mandatory injunction requiring the word to remove the structure from the word frevolt for the remove the structure from the structure by the public authorities unless removed by the owner. Whether such a discussion is a such as a such a man of the structure by the public authorities unless removed by the owner. Whether such a discussion is a such as a matter of some doubt.

"I am inclined to the opinion that a bill in the name of the star and the commissioners, in the colonial company, returned has night from New York. They have sold all the holdings of a strict by a structure of some doubt.

"I am inclined to the opinion that a bill in the name of the commissioners, in the colonial company, comprising more than 2000 acres of Pittsburg velo coal, and the sum of the Commissioners, in the colonial company, comprising more than 2000 acres of Pittsburg velo coal, and the company and the sum of the Commissioners, in terms recorded, the Court of Appeals, Birties of the sum of the Commissioners and the governing and the sum of the Commissioners and the governing with the control and regulation of the public attents of the court of the

The reports us to production of clover are, on the whole, unfavorable, the per-centages in the principal States, as com-pared with a full crop, being as follows: New York, 102, Pennsylvania, 62, Ken-Onio, Ss. and lows, St. In point of quality the crop compares favorably with that of uset year and with the ten-year averages in all but two or three of the paincipal clover producing States.

"During July the changes in the condition of the toliness crop were wholly unfavorable, Wisconsin reporting a decline of 25 points, Kentucky and Missouri, 24 points, Ohio, 23; Tennessee, 17; Maryland, 8; North Carolina, 7, Virginia, 5, and Pennsylvania, 1.

points. Ohio. 22. Teinnessee, ir. Maryland, 8. North Carollina, 7. Virginia, 5. and Pennesylvania, 1.

"Reports regarding the apple crop are extremely unfavorable. The comparatively low children during the month. A very poor crop will be gathered.

"The condition of rugar cane in Louishan is within 4 points of the normal and while it is 1 point lower than on August 1 last year, at is 4 points above the tenvent average. Other States that contribute to the cane sugar crop of the country also report favorable conditions, except Texus, where the reported condition of 63 is 29 points lower than on August 1 last year and than the ten-year average in that State.

"There has been a marked impairment during the month in the condition of pastures, there being but few States in which declines are not reported. In indiana, Illinois, Iowa, Kansas, Missouri, and Nebraska the falling off has been very heavy, ranging from 25 to 50 points. The condition of hops was, as a rule, ligher on August 1 than at the corresponding date in 1900, and in New York and Oregon, respectively, was 4 and 5 points above the six-year averages; it was, however, 3 points below the six-year averages in California.

"The condition of rice is on the whole favorable, although it is 1, 4, 8, and 7 points below the average condition on August 1, 1900, in Georgia, Foorlia, Alabama, and Louisiana, respectively; on the other hand, it is 4 and 2 points above the condition one year ago in North Carolina, Alabama, and Louisiana, respectively; on the other hand, it is 4 and 2 points above the condition one Quarage on North Carolina and South Carolina, In South Carolina, Forda, and Louisiana the condition is 2, 7, and 5 points above their respective seven-year averages, while in North Carolina and South Carolina, and Anama it is 2, 1, and 4 points below such averages.

A Presidential Pardon.

A pardon has been granted by the President to John B. Bulley, whose term of three years' imprisonment in the Ohlo penitentiary would have expired, with good behavior allowance, on September 2. Bulley confessed to having robbed the United States mails, and was sentenced June 29, 1899. The petition for executive clemency was endorsed by the trial judge. A Presidential Pardon.

WANTS THE NEXT REGATTA

St. Louis Makes a Bid for the 1902 | 1 National Event.

Athletic Legislative Associations Differ-A. A. I. Games at Baltimore -Y. M. C. A. Will Not Hold a Meet This Fall - Coliseum Attractions.

Hardly had the earsmen and their admirers from St. Louis landed in Philadelphia upon the occasion of the recent naional regatta held there than they ae about to secure a promise from the excutive committee to hold next year's regatta at St. Louis some time during the World's Fair. It is said that enough promises were secured by the visitors from the executive committee to make big event. The matter will be taken up officially by the executive committee of the National Association at a meeting to be held in March.

If the committee decides in favor of St. Louis, it will be the first time the regatta has been held in that section since the regatta was secured by Detroit in 1893,

After the formal announcement in March a committee will probably visit St. Louis to select a course for the regatta. There are several available bodies of water in the vicinity of St. Louis, and ofter a course has been decided upon, the citizens will stand ready to spend any amount necessary to complete what nature may have left undone to make an

ATHLETIC ASSOCIATIONS DIFFER.

The holding of the public or municipal track and field games at Patterson Park, Baltimore, under the direction of the Middle Atlantic Association, sometimes spoken of as "insurgents," and which is composed of clubs which second from the Atlantic Association of the A. A. U., has brought about a controversy between the two associations. The A. A. U. laims that the games should have been held under its direction and that certain persons should not have been allowed to

In reply to the various statements made A. A. U., Mr. Penniman, who officiated as referee of the games, gave out a statement as follows:

"The statement that the games were outlawed' is hardly a correct one, as the Middle Atlantic Athletic Association is just as well organized and recognized, too as an athletic body as the Atlantic Asso ciation in this city. The class of gentle-men at the head of these municipal ames, backed by the various officials of the M. A. A. A., was as good a guarantee es could have been given that all men of ood amateur standing would be allowed

The charges of professionalism against ne or two of the contestants are being avestigated by the officers of the Middle Atlantic Association, and pending a decision the prizes in the events in ques-tion are being held up.

ANNUAL A. U. GAMES. The annual fall track and field games f the Atlantic Association of the Amaour Athletic Union will be held by the Baltimore Athletic Club Saturday, Sep-

The programme, which will be run off at Electric Park, Baltimore, will include 40 and 220-yard dashes; 440 and 830-yard runs, relay race, running high jump, pole vault, 16-pound shot, 16-pound hammer, and bicycle race.

A number of entries from among the athletes of this city will be made. The games are open only to registered athletes.

NO Y. M. C. A. MEET THIS PALL. It is not at all likely that the athletic epartment of the Young Men's Christian Association will hold a fall track and field meet this year. The expense attending the giving of these affairs is very large, and the paid attendance upon the affairs

in paying numbers.
Physical instructors Rideout and Beckett have worked hard at all times to make a success of the meets, and it is too had they have not had better encouragement. They will now devote their energies to developing their track and field men for entry in out-of-town games.
The first of these to have their attention will be the Atlantic Association A. A. U. games to be held by the Baltimore Athletic Club at Electric Park, Baltimore, Saturday, September 28.

Athletic Club at Electric Park, Baltimore, Saturday, September 28.
The team to be prepared for entry in these games will be selected from among Mather, Reddington, Hough, Stanley, Gleasea, Spaudding, Pimper, and Fewkes.
Mather, by a mere lack of luck, failed to win the pole vault in the Y. M. C. A. handicaps at Euffalo. He cleared the bar at the best height, merely grazing it, and it fell off. The next man, the winner, grazed it, but it bounded and stayed on the pegs. This was hard luck.
Reddington, as stated heretofore, came third in the 29-yard run. Pimper, Fewkes, and Spaulding are moving fast. They have shown wonderful improvement in the past year. Hough is keeping in shape and will again be seen in the the past year. Hough is keeping in shape and will again be seen in the jumps and field events. A relay team will be selected later on. All hands will take up earnest, hard work the latter part of this month.

THE RACERS AT BUFFALO. The past week has been a gala one for he amateur bicycle riders at Buffalo, where the national championships have nees, and riders as well as big crowds

races, and ricers as well as big crowds voted it the banner scason of the sport, The races were bed under the direction of the National Cycling Association.

Next week the League of American Whedren, the pioneer association in cycling, will hold its twenty-second annual convention at the Rainbow City. It is expected that considerable time will be given to a discussion of ways and means of increasing the membership, and all friends of good roads and sidebalts will be interested in the attention which will be paid to these kindred subjects.

One of the officials very wisely says: "It should not be forgotten by wheelmen and wheelwomen that the League of American Wheelmen is the only active organization through which the League of American Wheelmen is the only active organization through which the League of expectation of results. Better roads and more sidepaths are desirable. Large membership will be more likely to secure them than a shender roil. There are benefits to be derived from membership far in excens of the cord of the card, and wheelmen while doing the league justice and the tourist cyclist a favor by unuting with it and making it what it was a few years are, one of the livelest and strongest.

Chilists.

President O Connell takes the same father than the dissatisfied men father the movement because they have view and states that the dissatisfied men father the movement because they have lovely and states that the dissatisfied men father the movement because they have lovely and states that the dissatisfied men father the movement because they have not because they have not been permitted to run the regular or ganization to suit tifemselves. He gives it as his opinion that the proposed concern is barred from admission into the ranks of the Industrian to suit tifemselves. He gives it as his opinion that the proposed concern is barred from admission into the ranks of the fundamental principles of the Federation of the fundamental principles of the Federation.

Mr. O'Connell objects to a statement made by J mateur sperting organizations in the

During the coming week, beginning to heir inning. It promises to be the largest cathering of cracks ever seen at one neet in this country and will include, mong others. Will Stusson, Major Tay-or, the colored wonder, Frank Kramer, he Jersey boy with championship as-irations; Tom Cooper, who rode in Eu-ope hist year; Owen S. Kimble, of Ken-ucky, the mile champion. Freeman, the regenting McFarland, the handicap king ore-gonian. McFarland, the handleap king and distance stayer, and a score of others equally prominent. Gaseoyne and fen-kins, the English champions: Grognet, the French sprinter, and Edward Taylore, the Parisian middle-distance specialist, will sid an international tone to the racing. All manner of sport will be supplied, from the short sprints to the middle distance battles, and the whole will comprise all that is interesting and exciting in cycle racing. racing.

The preliminaries will be run off the first three days and the finals the last three days of the week.

A CHINAMAN WINS HIS CASE.

Lee Sing's Onth Denying Any Gambling Interests Accepted. H. A. Taylor, Assistant Secretary of the Treasury, has reversed the decision of the

Commissioner of immigration in the case of Lee Sing, a returning Chinese merchant, who has been endeavoring to obtain admission at San Francisco. The latest order directs that he be admitted. Sing has been admitted at San Francisco under the law applying to the statos of Chinese merchants. He was retus of Chinese merchants. He was re-turning to this country, where he had lived previously, after a visit to China. There was no question of his right to land, under the law, as the fact that he was a merchant was plainly established. The point under consideration was wheth-or not he was concerned in one of the big gambling houses in Sun Francisco. big gambling houses in San Francisco. The Bureau of Immigration held that he

Clabaugh's Decision.

Justice Clabaugh yesterday announced his opinion in connection with two of the Emery E. Burley, and others. The ques-tion came up on the motion of Edwin

representing Hayes and the Order of the Knights of Labor. Argument was heard Friday, and Justice Clabaugh yesterday announced his decision consolidating the

time the proceedings were begun. The other suit was that of the Order of the Enights of Labor against Parsons, for Forrest, counsel for Parsons and others, discovery and accounting.
